YUKON TERRITORY FINDS IT HAS PACIFIC OCEAN PORT AT HEAD OF GLACIER BAY

British Columbia-Alaska Boundary Ran Across Ice Field When Set Years Ago; Unexplained Change POLICE HAVE Has Disclosed Salt Water Reaching Into British Columbia; Panhandle of Alaska Cut Off From Main Area of That United States Region.

Vancouver, Aug. 4-The Vancouver Sun to-day carries the following special dispatch from Stewart, B.C.:

"Canada may have a new ocean port giving direct access to the sea from the Yukon Territory, across a corner of British Columbia, obviating the present necessity of crossing United States territory from Skagway, according to a statement made by J. P. Forde, Federal Government engineer, who passed through here on his way to the head of Glacier Bay, an inlet west of Lynn Canal.

When the boundary between Alaska and Canada was delimited, it ran east and west several miles north of the head of open water in Glacier Bay, but crossed a field of solid ice or

WHEAT CROP LARGER

THAN LAST YEAR'S

Washington, Aug. 4.—Wheat production in the world's seventeen principal grain producing countries was estimated to-day by the Department of Agriculture at 2,110,000,000 bushels, compared with 2,065,000,000 bushels. In 7 the same countries last year.

Be Broken Off

open water in Glacier Bay, but or a glacier connected with the waters of the bay. Changing climate, un-usually warm weather, or some na-tural upheaval of the ice bed has caused the ice to disintegrate, Mr. Forde declares, with the result that the open waters of Glacier Bay now extend past the boundary line into the northwestern tip of British Co-lumbia, which adjoins the south-western corner of the Yukon Terpi-tory.

"This would make Glacier Bay an international waterway, it is assumed, and the port a Canadian port. A direct outlet is therefore feasible provided a route can be found to connect with the Yukon River or other streams of the interior.

ALASKA'S PROBLEM

There is another angle to the situation, as it affects the lengthy agitation by residents of the Alaska panhandle for separation from the main Alaska peninsula and the organization of the panhandle into a separate state.

"It is claimed nature has forced a natural separation by opening the waters of Glacier Bay beyond the Canadian border, and that, except by crossing the waters of the bay, there is now no connection between the separated portions of Alaska other than going around through Canadian territory.

Anthracite Wage Negotiations at Atlantic City Expected to Be Broken Off

PURCHASE OR EXCHANGE

PURCHASE OR EXCHANGE

"Unformen problems of an international character have been created, it is claimed. If the United States should wish to preserve the land connected between the panhandle and the peninsula, the boundary line will have to be changed to take in some Canadian, ested that the United States might be willing to give Canada that part of the Salmon River valley lying east of the high range of mountains between the Salmon and Chickamin between the

SAFE BLOWERS

Finger Print Experts Are Investigating Spencer Robbery

No fresh clues as to the identity of the men who blew open the safe of David Spencer's Department Store have been discovered by city detectives working on the case. No success so far has rewarded the efforts of the finger-print experts who are continuing their investigations

ontinuing their investigations in this direction.

The handcuffs with which the night watchman was manacled, were a hopeful clue, but little has been gleaned from them. The finger prints on the safe itself were vague. The crime follows a period of crime intertia broken by the perpetration of the most successful and one of the most successful and one of the most aring robberies ever undertaken in Victoria. About \$18,000 was the plunder of the two bandits who shattered the big safe in the general office of the department store.

Person in Luck

Police officers here to-day said that if the luck of the bandits holds they if the luck of the bandits holds they will be hard men to catch. In the first place there were two faces. In the office. One of them had about \$15,000 in it and the other had nothing. They opened the one with-the money first. Seche onely one, when the money first shere are two. On Sundays there is only one. When they captured the only one, when they captured the ship, I would say with Sir Walter Scott:

"To those who think we should have no said the Premier, "and that ours should be captured the watchman on emering the building, they were prepared for a second man. The engineer had just left the place and the watchman was alone.

"Breathes there a man with soil so dead who never to himself hath said.

Vancouver, Aug. 4.—A report from Blaine this afternoon denied that two men were held there as suspects in the David Spencer store robbery in Victoria on Sunday night. Both city and provincial police said they had not been in communication with the Blaine authorities.

NEW MOVE MADE IN SCOPES CASE

Chattanooga, Tenn., Aug. 4.—A second attempt to remove the Scopes evolution case to the federal courts was launched to-day when Dr. John R. Neal, chief counsel for the defence of the teacher, filed a petition with the clerk of the circuit court here seeking to restrain the state authorities from further prosecution of the case.

FOREST FIRE INTO TOWN AND WINS BY

EEN FROM STEAMER

STARTED AT 8.10 A.M.

The sea is calm, the weather cloudy and the temperature of the water 58 degrees Fahrenheit.

Miss Lillian Harrison, the Argentine girl swimmer who is soon to make another effort to swim across the Channel after three unsuccessful attempt. is accompanying Mile. Sion for a few miles for training purposes.

SAYS PACIFIC

PEACE IS SURE

U.S. ADMIRAL

Tom Uphill, without whose Irish quips the British Columbia Legis-lature would be a dull and miserable assembly indeed, reached Victoria to-day from his constituency of Fernie with a doleful tale to tell. Mr. Uphill, indeed, says that he owes his life only to a sharp Irish wit and a good pair of legs. "Without them," he told members of the Government with his usual Irish twist, "you might be talking to a dead man to-day and no mistake." I'll tell you how it happened. There was a forest fire down in the Crow's Nest Pass the other day and all leyal citizens, among which I class myself, sallied forth to fight it. With the rest of the citizens of Fernie I started out armed with a shovel and a lot of determination. At the end of an hour of digging fire

and a lot of determination. At the end of an hour of digging fire breaks in heat and smoke I still had the shovel but the determination was only about fifty percent or less. Pretty soon we looked up to where the fire was burning and we saw that it was racing down towards us like an express train. Says I to myself, says I, 'The race is on.' Well, I beat the fire into Fernie and here I sm. This town looks pretty good to me, too."

in averting the threatened miners' strike throughout Great Britain, it is certain there will be

MENACING WATERWORKS Fifty Fire Fighters Battle With Blaze Which Has Burned Sawmill and 600 Acres of Forest; Crew to be Doubled To-day in Desperate Effort to Halt Flames Now Completely Out of Control.

EDGE OF SOOKE TIMBER

Victoria's watershed around Sooke Lake was brought into danger to-day by forest fire which has swept across a large area in the Sooke district, destroyed a sawmill and broken out

of all control. Reports received by the forestry service from its rangers indicate that the fight against this disastrous outbreak so far has failed completely to half its course. From the fragmentary information available here up to a late hour this afternoon it was evident that the fire had reached a point only a mile and a half below the lower end of Sooke Lake where the intake of the city's

FRENCH GIRL

waterworks system is located. At the rate of its progress last night the fire could reach the intake in a short time, it is believed. Meanwhile it is Lear the edge of valuable watershed timber in which the city's water supply originates.

Fifty fire fighters have been gathered at Sooke Lake by forest rangers and are battling desperately to cheek the onward march of the lame. So far they have been unable to halt it, and the fire was reported at noon as out of control.

MacMILLAN PARTY ANSWERED RADIO CHICAGO QUERY

Arlington Heights, ills., Aug. 4.
—For the first time in history, the successful transmission and receiving of messages to and from the Arctic Polar area was recorded when late last night and early this morning the MacMillan Arctic Expedition answered a query of newspaperimen from Radio Station 9XN, situated here. The expedition, now at Etah, Greenland, approximately 3,700 miles north of Chicago, clearly heard, the message and within fifteen minutes the answer came through the Arctic wastes scarcely hindered by static and adverse weather conditions,

Burglars Warned Force Not Needed At Mayor's Safe

Inviting gentlemen of felonious intent to aid in preservation of the city's property, John Baxter, secretary to Mayor Pendray, has adorned the ancient wrought iron fireproof safe in his office with a note of appeal to marauders.

"Notice, intending burglars, please note this safe is not locked," is the pithy invitation pasted on the rugged face of the iron yault wherein the mayor's official books and papers are nightly deposited.

BEER TAX MAY . RAISE FUNDS FOR

ters.

It is said Winston Churchill, Chancellor of the Exchequer, is considering the question of an increased tax on beer which would enrich the Exchequer to the extent of £20,000,000 a year on the basis of the country's present consumption.

BOOST WAGERS AT MAINLAND TRACK

Racing wagers last Saturday took a slight jump upward, according to official figures issued to-day. At the opening of the Lansdowne Park at the end of last week \$122,454 was wagered as against \$104,143 on the opening day at Lansdowne last year. This increase—almost the first noted during the present racing season—is explained by the fact that the opening day this year was a Saturday while last year it was a Monday. Saturday crowds always swell the daily wagers.

ELEVEN YEARS AGO

ELEVEN YEARS AGO to-day the British Empire went to war. The issue was well and truly joined. Prussianism had challenged the freedom of the world. The rest is history. In spite of that awful conflagra-

tion, notwithstanding the frightful human carnage, the pitiless destruc-tion of treasure of all kinds, August 4, 1925, finds the world still little better than an armed camp. Mor men are under arms to-day than were under arms in 1914. Naval programmes, armaments in many guises, poison gas, bigger and more powerful air fighters, are potent issues in many countries at the pre-sent time. The first real and constructive effort to preserve the peace so dearly bought is not supported as it should be supported. The League of Nations is compelled to plod its weary way over every form of obstacle that its opponents choose

This condition is a striking commentary upon the world's attitude towards international accord. To prepare for war to insure peace i same old popular fallacy that it was fifteen years ago. Yet one can only hope that international sanity in these matters will expand as the

B.C. BULBS

DEOPLE IN VICTORIA and elsewhere in this Province import large quantities of bulb from Holland every year. Profes sor F. E. Buck, president of the Point Grey Horticultural Society, puts the number at more than a million. But he says that British Co-lumbia could grow bulbs of quite as good a quality as the Dutch product and in quantities sufficient to meet the demand which is now being satisfied by growers on the other side of the North Sea. What is also to the point is his declaration that this part of the American con tinent is the most favorable spot in which to grow bulbs in large merchantable quantities. In other words he sees an important and pro-fitable future for horticultural development in this particular con-

Is it not a fact that some of the ost ardent exponents of industrial times overlook the possibilities in what may appear to them to be small things? The sending away of British Columbia money for more than a million bulbs every year may not be a very serious matter. But it is not only the actual effect of it, and commercial interchange in purchasing goods from the outside that should be understood; it should that should be understood; it should be remembered that, taking the bulb business as an example, if this handicap to industry as a whole. needs, a foundation could be laid for the establishment of an export business in addition. Thus would be insured the benefit consequent upon keeping British Columbia's Province were to satisfy its ova money at home and subsequent benefits from sales outside the Province. Similar remarks might apply

CASTING SHADOWS

THE VANCOUVER Daily Province correctly ap-preciates the importance of the po-litical debates which the Union Societies of Oxford and Cambridge Universities conduct from time to time. It is not to say that their mock divisions upon topical resolutions can always be taken as indicative of the general trend of political thought at the moment. But the historical records of these interchanges reveal a number of very striking examples of events which have cast their shadows before. Our contemporary refers to the most recent encounter at Cambridge in which Liberalism found more support than either Conservations or Labor. The motion before the "House" was: "That this hought a characterism of the Cambridge in which Liberalism found its aims." The result of the distance when the British Government will have produced as it should be run and take a hand its aims." The result of the distance was a proposed to the country is not being run as it should be run and take a hand in the page of the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the country is not being run as it should be run and take a hand in the count Societies of Oxford and Cambridge

erals in a vote of 164 to 152. Lord Hugh Cecil led the Conservative forces and Mr. Ramsay Muir, editor of The Weekly Westminster, championed the Liberal adherents.

The presence in the House of Commons of the largest political majority since the days of the Reform Act may not be the most enform Act may not be the most en-couraging time for the weakest Op-position Party to preen itself and expect an early change of fortune. It is none the less a fact that the present condition of Great Britain, politically, economically, and sopolitically, economically, and so-cially, is by no means the safest con-dition for a Government with such an unwieldly following—apart, of course, from public attitude towards the two schools of political thought as represented by the old parties. Indeed it will be surprising if two years of the life of the present Ad-ministration has without another ministration pass without another appeal to the people. It will be still more surprising if the demo-cratic principles which govern the policies of the Liberal Party are not once more approved by the elec-torate when their reconsideration can be conducted without reference

COULD HELP THE CITY

to extraneous matters which have very little to do with the life of

the nation in its political sense.

IT IS IMPORTANT SOME A of those in charge of sight-seeing cars and taxicabs in this city should give useful and interesting information to visitors. There is r need to include in nonsense. A lit-tle humor is all right in its place, but it ought to be real humor. Otherwise the announcer should confine himself to unadorned facts. These announcers, of course, desire to give maximum service. realize that many of their charges so in order to obtain information in a pleasant way. Perhaps a conference, such as suggested by the mayor, at which the question could be discussed in a friendly way, would present the situation in a new light to some of the younger men whose outlook on a sunny day with a jovial crowd beaming on the surroundings sometimes causes them to miss good opportunities for helping the city in a very practical way.

THE CONSUMER'S CASE

NEWS DISPATCHES SUGgest that President Coolidge is considerably depressed by the reduction of wages in the textile works of New England. This is of considerable interest to the people of Canada who are being told by Mr. Meighen and his supporters that this country can be halted on its course to what they choose to call its mad rush to national bank-ruptcy by a high protective tariff. The textile industry of the New

England states is a highly protected industry. It was compelled to introduce a ten per cent. wage cut late last year. It has now sub-mitted to another. What is the reason? There is a limit to the capacity of a people to buy. When the politician increases the tariff, which means adding the price of the protection to the cost of the article, he takes no account of purchasing power. Purchasing power is reduced by a high tariff. Lower creases; the more people buy, the It protects the fer of the many. In an emergency President Coolidge has the author-ity to alter the United States tariff. The New England textile trade may cause him to use it.

THE FASCIST DANGER

IN HYDE PARK LAST Wednesday night a Communist was preaching the reddest kind of Communism from the familiar soap-box near the Marble Arch end. Some members of the British Fascisti, on parade, came upon the scene and finally rushed the platform. The result was a few broken. form. The result was a few broken

heads and the peace disturbed.

WHO'S WHO IN **HISTORY TO-DAY**

TUESDAY, AUGUST 4

SEBASTIAN

King of Portugal, was killed in the battle of Alcazarquivir, in a war against the Moors, on August 4, 1578. Soon after the battle rumors began to arise that he was not dead, and for many years various imposters appeared claiming his crown, the last being hanged in Spain twenty-five years after his death. Thirty years later his name was used as a rallying-cry in Brazil.

WILLIAM CECIL

(Lord Burleigh) celebrated English statesman, famous as chief minister to Queen Elizabeth for forty years, died at London on Aug. 4, 1598. At the beginning of his career he was secretary to Somerset, who was then protector; but when his patron fell he was held in the Tower for two months. Later he became secretary of state, and until his death had great influence under Edward VI, Maty, and Elizabeth.

RUSSELL SAGE

American financier, was born on Aug. 4, 1816. After conducting a wholesale grocery in Troy, N.Y., for eighteen years, he moved to New York City, where he became associated with Jay Gould in developing and selling western railways. Later as a speculation in stocks and a money lender, he accumulated a fortune estimated at more than \$60,000,000. His widow, who inherited the bulk of his estate, perpetuated his name in founding the Russell Sage Foundation, with an original endowment of \$10,000,000, "for the improvement of social and living conditions in the United States."

SAMUEL J. TILDEN

SAMUEL J. TILDEN Eminent American statesman and lawyer, died at Greystone, near Yonkers, N.Y., on Aug. 4, 1886. He was a leader in the successful con-test against the "Tweed Ring," and served one term as governor of New York. As Democratic candi-date for President, he received 250,000 more votes than Rutherford B. Hayes, his Republican opponent, but the decision of the electoral commission, on a partisan vote, was in favor of the latter.

Other People's Views

ELEVEN YEARS AGO

To the Editor:—From an event of minor importance in itself, the tremendous struggie of the last war nominally took its origin—eleven years ago. Experts and other peace agencies had so persistently preached that science had put an end to war, that the world had fully accepted the statements as founded on facts. But war came, and when it come it took a toll of many million human beings. Millions and millions logt their lives, while the remainder were wounded to a greater or lesser degree. The wounds of the mighty nations still bleed. A disillusioned world has emerged from the chaos; no one now thinks war impossible. Innumerable homes were destroyed and countless millions of dependants were left destitute. Property to the value of hillions was burned, destroyed or sunk at sea. Yet with all our experience, loss and degradation, in all the countries of the world an increase of armaments and preparations for new wars are taking place.

Not long ago a proposition was made at the Conference of the Limitation of Armaments, called by the League of Nations. The proposal was to restrict the use of bombs filled with cholera and plague bacilli, and all kinds of other good things. The conference rejected this proposal, alleging as the reason for its rejection that in any case the proposal, alleging as the reason for its rejection that in any case the proposal could not be carried out. This means that the cause of war has advanced so far that it would not be of disadvantage to the most powerful states to limit themselves even in such a dastardly affair as is the preparation of bacteriological bombs. Armaments are going ahead at full speed. At the present moment there are more

far that it would not be of disadvantage to the most powerful states to limit themselves even in such a dash bacteriological bombs. Armaments are going ahead at full speed. At the present moment there are more men under arms than before the war. As I write, this, under our very even and in Africa. We show at present a whice series of deep-seated conflicts and we have two wars. In these conflicts and wars capitalism is showing its most lostnoone sides. It is carrying on a policy of the victoria Chamber of Commerce, wha has just returned for the present situation is similar to that which preceded the war. Can it possibly be said that the present situation is similar to that which preceded the war? Not which preceded the war? We had Carrist Russia: now we have soviet smassed in the state that he wishes God would give every bound German professor consists that he wishes God would give every bound German professor consists. And the present demands of the base of the farm of the preceded the war we have a powerful smearing the China. Now as regards England. The capitalist regime is still in force there. That is true. But the working class is there also, and from the region of the victoria Chamber of the war we have a powerful smearing the continued of the last commence of the general staffs of the last commence of the general staffs of the Baltic countries which took place a short time areo. We have the speech and we are at war." Trotsky in his last address to the Red Army stated that "Hostillites might break out, but it can promise you if they do that and a surface of the general staffs of the Baltic countries which took place a short time areo. We have the speech and war at at war." Trotsky in his last address to the Red Army stated that "Hostillites might break out, the people of the war break out the people of the war and the people of the war break out the people of the war break ou

CANCER RESEARCH

Dr. F. Keysher Says He Was at Work Before Gye-Barnard Team

British Scientist States He Had no Information to That Effect

London Aug. 4—Dr. William Gye.

P. A. GRAHAM.

1263 Tolmie Ave., Victoria, August official circles here to-day that the chances are improving that negociations for a security pact between Germany, France and Belgium will come to a head in the pacific atmosphere of Geneva during the forthcoming session of the League of Nations Assembly.

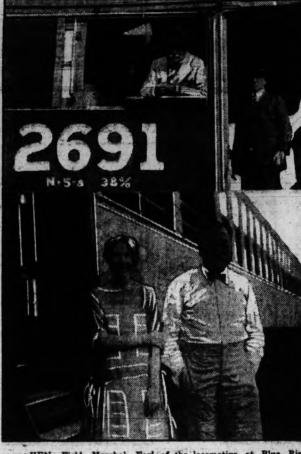

French diplomatic experts are working on details of such a pact. And expect to have its text ready for discussion when the occasion arises at Geneva.

Meanwhile the exchange of views for continuing between Paris and London as to the French and British replies to the second German note regarding a western European security pact. This note, signed by Foreign Minister Stresemann, was delivered to the Allies July 20. The hope is expressed at the Qualification will be reached so an answer can be forwarded to Berlin within ten days.

DOKAYS MEET IN ABERDEEN, WASH.

Aberdeen, Wash. Aug. 4.—More than \$00 members of the Dramatic Order of the Knights of Khorrasan are gathered in Aberdeen and Hoquiam for the annual convention of Pacific Northwest Temples. Portland has more than 100 members here Vancouver, B.C., has sixty, and the remainder represent various other temples in Washington and Oregon.

EARL HAIG AS ENGINE DRIVER

WHEN Field Marshal Earl of the locomotive at Blue River Haig crossed the Canadian Rockies on his special Candian National Railways train, he expressed a wish to view the scenery from the cab of the engine rather than from the observation car which was attached to his train. He therefore took the throttle Rockies.—C.N.R. Photos.

Aubrey Clark, Vancouver, B.C., Kenneth Webb, Seattle, and C. E. Frasier, Yakima, members of the board of trustees.

The 1926 convention cisy will be selected at a meeting of the board of trustees next month. Vancouver, Wash, made an informal bid for the convention of the session, however.

The delegates veted to meet twice a year, starting in 1927, instead of annually as at present.

The delegates were taken to a beach resort yesterday afternoon, where a programme of drills, concess and other events was held.

STRATTON TO LEAD

Pastor of Calvary Baptist Church, New York, Asked

New York, Aug. 4.—The leadership of the Fundamentalist forces of the United States, of which the late William Jennings Bryan was the outstanding figure, has been offered to the Rev. John Roach Stratton, D.D. pastor of Calvary Baptist Church here and long a foe of Modernism. In making this announcement, Dr. Stratton said he was not at liberty to reveal the names of those who had urged him for the place. They were, however, prominent New Yorkers who had formed an organization through which to prosecute a nation-wide war against the teaching of evolution in tax supported schools. Dr. Stratton said he would challenge Clarence Darrow to a series of from ten to twenty debates on evolution.

In an address at Asbury Park, N.J...

In an address at Asbury Park, N.J... that no decision on the matter had been made by the Government. The proposal of the New Westminster businessmen, he said, would have full consideration.

The claim of the delegation was that potential buyers are lured away from New Westminster to Vancouver where they can buy all the beer they want by the glass.

It is expected here that the people in New Westminster opposed to beer will come to the Capital shortly to tell ffeir side of the story. New Westminster voted dry by a heavy majority at the beer plebiscite last year.

from ten to twenty debates on evolution.

In an address at Asbury Park, N.J., last night, Dr. Stratton blamed evolution's glorification of the flesh "for the ethical collapse" of the modern

its tendencies. It was this reflection of evolutionary philosophy the destroped Germany."

Saanich Liberals To Meet on Friday

Liberals of Ward Seven, Saanich, will meet at Tillieum School, on Friday, August I, at 8 p.m. for organization and other business. All residents in sympathy with Liberal principles and the policies of the Mackenzic King Government are invited to attend. Ladies of the ward are especially invited to be present.

FOREST FIRES ON QUEBEC ISLANDS

Quebes, Aug. 4.—Six forest fires are raging 150 miles to the North of Zevan Islands. It is thought they were started by lightning. The fires are burning in the most heavily wooded sections of that area and are located within a radius of sixty miles, about 150 miles from the nearest forest patrol station.

REGIMENT IS MAKING LONG ROUTE MARCH

London, Aug. 4.—Nearly 500 members of the London Scottish Regiment, with a pipe band, are on a route march from Aberdeen to Perts in preference to carrying out their usual training with the London division of the regiment.

The battalion yesterday completed the first stage of its route march along the Deeside and expect it reach Perth, 160 miles, on August 15.

Geneva, Aug. 4.—The German Government has filed with the League of Nations its ratification of the convention for the simplification of customs formalities, which there can nations signed at Geneva in November 1924. The convention became operative November 27, 1924.

BEDTIME STORY

Uncle Wiggily and the Grasshoppers

Copyright, 1925, by McClure News paper Syndicate.

(By Howard R. Garis)

"When you come back from your gily," the rabbit gentleman's new wife called to him from the frontporch, "will you please bring some molasses with you."

"Yes," answered Mr. Longears, with a jolly little dance on one leg, to show how well he felt, "I'll bring the molasses."

to show how well he felt, "Til bring the molassea."

He was half way down the front path when his wife called again:

"Are you going to bring the molasses in your tall, silk hat?"

"Molasses in my hat? I should say no, indeed!" cried the bunny. "It would make my hat all sticky. Why did you ask if I was going to bring molasses in my hat?"

"Well, you aren't taking a jug, or a pail, or anything to put the sweet stuff in," said Mrs. Langears, with a laugh. "So I thought perhaps you were going to use your hat."

"Ha! Ha!" laughed the rabbit gentleman. "That would be funny! I didn't think of that. I'll take the jug. So he did, and sway he hopped over the fields and through the woods to look for an adventure and, at the same time stop at the five and ten

EXHIBITION OF

SUMMER SCHOOL Presentation Made by Faculty to John Kyle Yesterday; Closing Thursday

At a pheasing little ceremony at the Victoria High School yesterday, the teaching staff of the Summer School presented John Kyle, acting director, with a handsome leather traveling case in recognition of his "courtesy, tact and genhality." Arthur Ansiev of the faculty made the presentation following luncheon, and in a brief speech voiced the general appreciation of the fine spirit displayed by Mr. Kyle.

The recipient, who was taken by surprise, expressed his pleasure at the gift and the kindly thought which prompted it, and selxed the opportunity to thank the staff for their ready and cordial co-operation.

Mr. Kyle announced the formal closing of the Summer School on Thursday of this week. There will be an exhibition of work and a musical programme to both of which the public is invited.

The exhibition will consist of class-room displays of work done by the various groups. This will be on view from 7 to 8 pm. The concert will beein at 8 pm. and the music dancing and drill which will constitute the programme, will represent the work of the students in the several classes which have taken these subjects during the month.

There will be numbers by Miss Cornish's music class, by Mr. F. Waddington's demonstration class; folk-dancing by Miss Cotsworth's pupils and others from classes in charge of Miss Cussan and Mr. The musical programme by Miss Cornish's pupils is to be as follows: Class songs, selection from Haydn, "The Dream"; "My Mother Bids Me Bind My Hair"; and Finale from Symphony in C; solo, "How God Made the Daisies; "Laugh a Bit"; solo, "Mandalay." The soloists will be Mrs. Wilcox and Mr. T. Maclean, ment of Ozard's orchestra will take place after the programme. tickled his ears so very much that the Fox was all puckered up and he howled and gigyled and ran away, crying.

Famous Russian Dancer Be-comes Bride of British Economist and Writer

London, Aug. 4.—Mile. Lydie Loup-okohova. Russian dancer, and John Maynard Keynes, economist and writer who acted as economic adviser to the British delegation at the Ver-sailles Peace Conference, were mar-ried to-day at a London registry office.

When the couple left the office after an unpretentious ceremony they were greeted and showered with confettl by a huge crowd.

The dancer's marriage marks the end of her career on the stage, her sister said.

WISHES REGARDING

Tom Mix has filled "The Rainbow Irail" with swift action, tense dramatic situations and an abundance of real Mix thrills. This latest William Fox production, which openal at the Capitol Theatre last night, a based on the story from the pen of lane Grey, and the combination of these men of the West, Mix and Grey, caults in a picture of unusual undiry.

A loyal and the control of the popular star is Tony, his wonder horse. A signatic snow silde,
perilous rides and hairbreadth escapes figure importantly in the unfolding of the tale.

Anne Cornwall is the charming
object of Tom's affection. George
Pancroft and Mark Hamilton, the

JEANIE MACPHERSON WAS SCENARIST IN "TEN COMMANDMENTS"

Jeanie Macpherson, who wrote the modern sequence of "The Ten Commandments," now at the Dominion Theatre, is a direct descendant of Bonnie Prince Charile, the royal Stuart heir of the Highland rising of 1745. Commingling strong ancestral strains of Scottish and Gaelic blood, she first saw the light of day in Boston and was educated in a Paris convent. After a number of years on the stage she joined Griffith at the old Union Square Biograph and had a wide experience. She was an early comer to Hollywood, the western movie Eldorado, where as, a member of several ornanizations she wrote her own stellar vehicles and developed literary ability. She then achieved a place with Cecil B. DeMille and, abandoning the acting field, devoted herself to scenarios. All but three of the celebrated director's stories have been adapted or originated by her.

She is probably the most practical and able continuity technician in the world, and certainly one of the Big Three of the women writers for the screen. She has invented the short cut of movie expression, awing the spectator boresome details and long littles by lightning-like visualizations of meanings. With this happy faculty are united psychological insight of a rare order and an inexorable logic of events and daring imagnation, humor, pity and sympathy, and you have some of the reasons why Jeanie Macpherson is in the top rank.

"HEAD WINDS" IS UNIVERSAL JEWEL COLUMBIA FEATURE

In his latest starring vehicle, Headwinds," the Universal-Jewel eature showing at the Columbia Theatre, House Peters, as a wealthy rachtman, brings to the screen a rand new idea of a lover and of love. Love is perhaps the oldest theme n existence and has been exploited by everybody in every walk of life

GORGEOUS COSTUMES IN LATEST PICTURE PLAY AT COLISEUM

The costumes worn by Miss Florence Vidor, who plays the title rolin "Christine of the Junery Heart," in the content of the Junery Heart forming heart.

The first scenes in "Christine show Miss Vidor as a radiant bride in a most wonderful creation. Each in a most wonderful creation, Each and is the owner of a very fine collection of antique laces including shawls and in the owner of a very fine collection of antique laces including shawls and mantillas. One of this latter is worn in the fancy dress ball scenes in "Christine".

Miss Vidor is a lover of laces, and is the owner of a very fine collection of antique laces including shawls and mantillas. One of this latter is worn in the fancy dress ball scenes in "Christine" and mantillas one of the interest of the "Christine" cast are the screen frocks, wherever permissible, chantilly and rose point and her screen frocks, wherever permissible, and walter Hiers are among the featured players in the cast of "Christine".

Last night at the Collseum Theatre an already wonderful reputation, was enhanced by the stage production "Yes, Auntie". The music is beautiful, while the casting of the perfect. Will Marshall is seen in "Yes, Auntie" as a henpecked, old gentleman, a character which he depicts delightfully. George Olsen and Eva Hart, as the newlyweds, both give a very fine performance and both in dust and solo work made distinct hits. Vangle Bellby, as that George Brydone and Elleen Allwood are a couple of youngsters who have committed the unpardonable sin of sent latter and the provided of the work made distinct hits. Vangle Bellby, as the title of the control of the work made distinct hits. Vangle Bellby, as the title of the control of the work made distinct hits. Vangle Bellby, as the title of the control of the work made distinct hits. Vangle Bellby, as the title of the control of the word word of the week amounting to more distinct hits. Vangle Bellby, as the title of the control of the word word of the word word of the word word of the word word of the word word

There are few screen actresses in greater demand than Anna Q. Nilsson. During the filming of "One Way Street," in which she can be seen this week at the Playhouse Theatre, she received no less than seven offers from producers, but because she had signed up to return immediately to Hollywood, she was forced to refuse. In "One Way Street," Miss Nilsson has a particularly appealing role—that of an actress who is compelled to do more "acting" in real life than she ever displayed on the stage. She is cofeatured with Ben Lyon in this First National picture, which was directed by John Francis Dillon.

The stage show offered by the Reginald Hincks Company at the Playhouse this week is "Madame Sherry," featuring Mona Warren.

'NIGHT IN BOHEMIA" IS EXTRA ATTRACTION AT CAPITOL THEATRE

STEEL FOR DRYDOCK CAISSONS EXPECTED TO ARRIVE SHORT

Yarrows Limited all Ready to Start Work on Two Huge Floating Gates to Complete Entrance of New Graving Basin at Esquimalt; Canadian Firm Fabricates 2,000 Tons of Steel for the Work

With the arrival of the first of the steel for the construction of the two huge eaissons for the new graving basin expected this week work on the last stages of that contract will get under full swing, it was announced by Yarrows Limited, to-day.

The Canadian Bridge Company, of Ontario, fabricated the steel, some 2,000 tens of which will be shipped steadily now by the Canadian National and Canadian Pacific reads to Esquimalt. Now that the steel is to hand the actual construction of the two huge gates will take about six months.

the 556 leng tons of concrete ballast in each caleson.

They will draw about 28½ feet of water when floating light, and when submerged, the draft will be approximately 45½ feet. They will be more or less ship-shape in appearance, in so far as they will have tapesed ends or bows, and have six decks in all. The facing of the keel and stem will be fitted with Australian iron bark, which will make the watertight bedding surface against their own will be prosecuted to the drydock, the caisson or caissons will be moved away, enabling the ship to proceed out of dock. These gates will be erected at company's yard, Esquimalt, and built on their side, and launched in this position. When affect and uprighted, wertical type will be situated on the superstructure steel work will be completed, after which, the stability tests will be made.

The contract was awarded to Yarrows Limited at unit prices, the approximate expenditure being \$414.

973.

The two gates will have the followin dimensions respectively: Caissen No. 1, 49 feet high, 139 feet dis,
nches long, \$7 feet beam; caissen
No. 2, 46 feet high, 139 feet of,
ser No. 2, 66 feet high, 139 feet of,
ser No. 2, 66 feet high, 139 feet long,
for the beam; the condition,
they will be warped into position, the
seuttling valves opened, and the
gates submerged. The main pumping machinery of the drydock will
then be started, and as soon as the
water when floating light, and when
submerged, the draft will be apwater when floating light, and when
submerged, the draft will be apwater when floating light, and when
submerged, the draft will be ap-

TRANSPORTATION FACILITIES FOR WATERFRONT INDUSTRIES

Thirty sawmills on Vancouver Island will new co-operate and be able to assemble their lumber at the port of Victoria and take care of general cargo with the same facility that the large Main-land mills have been able to do, The Western Lumberman points out in discussing the projected establishment of a lumber assembly plant at the Ogden Point dock. Under the caption "Victoria Will be a Major Export Lumber Port," the article says:

"It is estimated that some of the Island mills, in utilizing the new facilities at the Outer Docks, will be REMAINS OF LATE. "It is estimated that some of the ! able to effect a saving on their ex-port business of from \$1.75 to nearly \$3 per 1,000 feet, the only avenue previously available to them of shipping being from the port of Van-

previously available to them of shipping being from the port of Vancouver.

"The connection which is to be established through the medium of this plant will be of a far-reaching nature. A fleet of harboy transfers, it is stated, will be established here by the C.N.R., which will form a connecting link throughout Victoria and Eaquimait harbors and by the establishment of ferry slips along all the waterfront industries will mean that a network of transportation will be furnished between the Outer Docks and practically every industry along the waterfront.

"The method of operation which, it is understood, will be adopted contemplates establishment of ferry slips at the C.N.R. terminus on the eld Songhees Reserve. Cars will be brought down from Island mills, transferred to the ferry slip at the reserve on the waterfront, taken across the harbor and landed at the site reserved to the rear of the Ogden Point plers. The yard there will be laid out to carry, on behalf of the various members of the expert association, a complete stock from which to supply full ship cargoes of assorted measurements.

"The E. and N. Railway has made

sorted measurements.
"The E, and N. Railway has made a arrangement, it is understood, to pply an export rate on lumber ever line so that the mills situate upon

Huge Submarine Plain Found Off Wortheast Coast of Spain

Original Charts Show Water at Depth of Three Miles There

L'Orient, France, Aug. 4.—A yast submarine plateau which is unmarked on maritims charts and whose erigin is a mystery has been discovered at a spot northeast of Cape Oriegal, on the north-least of the State trans. Arts port Loiret. His ship struck a huge Shir roller, like those which are found only over shallows, at a point where the chart marked a depth of three miles. Soundings were taken over a fifty-mile area, the readings varying from twesty-five to thirty fathoms.

The first opinion of hydrographers was that the plateau came about a fifty-mile area, the readings varying from twesty-five to thirty fathoms.

The first opinion of hydrographers was that the plateau came about the plateau came about the plateau came about the contradicted by the fact that the soundings showed a gravel bottom, which is incompatible with the theory of a recent disturbance in the bed of the sea.

On the other hand, it appears improbable the existence of such a plateau so close to the surface of the water could have escaped the notice of chartmeeters for any length of time.

Grain Shipments At Montreal up

Saturday Was Peak Day With Quarter Million Bushel Lead

Montreal, Aug. 4.—Grain figures issued by the harbor commission on Saturday show that all grain shipment records were broken by one flay's delivery of £37,712 bushels of grain to outgoing ships. The four harbor elevators were working at top speed all day loading more than fifteen vessels, twelve of which sailed for British and European ports over the week-end.

Harbor officials declared that this was the first time in history that grain shipments in one day have exceeded the two million mark.

Vancouver Oarsmen To Row at 'Frisco

EXCURSION PLANNED

The Ss. Princess Victoria of the B.C. Coast Service has been chartered by the Victoria local of the Ancient Order of United Workmen for an excursion to Seattle on August 8. The Victoria will sail at 9 am. from the C.P.R. docks, and returning will leave Seattle at 5.30 p.m. Ticksts may be had from the organization of the C.P.R.

PRINCESS BEATRICE TO BE HAULED OUT

Reaches Esquimalt Under Own Steam at 7 o'Clock This Morning

To be Lifted on Marine Railway For Survey

Southbound from Prince Rupert at the completion of her run the E.C. Coast Service Princess Bearing or Feathed Sequimate and the Princess Bearing of the Princess Bearing of the Princess Limited Wharf at the prince Princess Limited Wharf at the marine railway this afternoon for preliminary survey of the damage done when she grounded on Louise Rick, at the mouth of the Skesna River.

Capit. A Johnson finished the scheduled run of the Beatrice, discharged his passengers and freight, and brought the ship around under her own steam to Esquimatt to-day. What repairs, if any, will be necessary will not be known until the Beatrice is hauled out and her bottom examined.

Visited Fur Seal Colonies in Bering Sea

Aug. 4—John P. Dacower, 1924, the figures were: is 211,098 imports; exports, \$2.441,789. This compares to \$4,525,740 imports in the same period for 1923, and exports of \$3,195,196. In 1922 the figures for the nine months were \$4,521,532 imports, and exports \$2,537,966.

To get the total for the 1924 figures at the port of victoria, the months of January, February and March must be taken from the records of the preceding fiscal year and show January imports \$507,533, exports \$153,536; February imports \$540,527, and exports \$24,550; March imports \$663,556, rebruary imports \$560,527, and exports \$124,550; March imports \$663,556, and exports \$276,831.

This gives the total imports for the year of \$7,056,914, and exports \$3,186,566.

NEWS IN BRIEF

The Esquimeit Fire Department soon checked the blaze which broke out at the Burnett Brothers' Foundry yesterday afternoon. It is estimated that the loss was not more than \$200 or \$200.

The eixth ennual convention of the Grand Army of United Veterans will take place at the Mariborough Hotel, Winnipeg, from August 13 to 16. Delegates will assemble from all parts of the Dominion and also from branches in the United States.

The City Council last night authorised payment of \$125 to Radio Station OPCT, on recommendation of the Victoria Publicity Bureau. The city's grant to the station is contingent upon satisfactory reports from the bureau.

Geunciller Albert Heald was granted permission by the Esquimalt Council last night to build a 250-gallon gasoline tank on Esquimalt Road, near the junction of Admiral's Road, and while his request was being considered he gracefully retired from the meeting.

LOW HARVEST FARES TO START AUGUST 8

Daughters of England—The members of Lodge Princese Alexandra No. 15 Daughters and Maids of England Benevolent Society are requested to attend a joint special meeting of both local lodges called by the D.D.G.P. Worthy Sister Smith on Thursday, August 6, to be held in Harmony Hall at 5 o'clock, to make final arrangements regarding the visit of Grand Secretary Worthy

The Rev. Robert Maxwell, promient Methodist clergyman of Holwood, Belfast, arrived in Victoria tay, completing a tour across tentinent which he has made the nurness of observing concern

Secretary Harry Nobs of the Van-couver Kiwanis Club notified the club, by letter, as to the arrange-ments in hand for the Kiwanis Con-vention in September. One thousand reservations are being made, and ap-plications for accommodations are to be handled through the local club secretaries.

George Eastman, the kodak king and multi-millionaire, arrived in Victoria on one of his almost annual visits to the Pacific coast. After spending a day here he left for the Mainiand last evening.

Mr. Eastman said that outside of his kodak business, which has previded him with the money which he spends on shianthropies and his other activities, his big same hunting expeditions into northern British Columbia provide his chief thrilis. On each of these trips he is accompanied by a complete pack train with food supplies carefully packed and sufficiently large to keep the party going for weeks, without returning to town to replenish.

One of Mr. Eastman's delights is to be greefed, by young people on boats and trains during his travels. Just how many boxes of candy he has sent out during the last few years, members of his party could not say, but to every young woman who shakes hands with him he sends to her home a box of chocolates. This, he says, is not of the hobbite that give him delight.

Mr. Eastman has now practically retired from the kodak business, which he built up at Rochester, N.Y., but has been experimenting with a small moving picture machine. He says before long moving picture machines will be almost as common in the homes of this country as radios are now.

his request was gracefully retired from the control of the City Council of the City Co

The funeral of the late Mrs. Frank
Burrell took place this morning. The
cortege left the family residence, 2986
Lincoln Road, Oak Bay, at 16 o'clock,
proceeding to Christ Church Cathedral, where services were conducted
by the Dean of Columbia, assisted by
Rev. F. H. Fatt. There was a large
congregation of sorrowing friends
and many beautiful flowers covered
the casket and hearse. The hymns
sung were "For Ever With the
Lord" and "On the Resurrection
Morning." Dean Quainton officiated
at the graveside. The pallbearers
were Messrs. H. A. Munn, A. H. Harman, P. W. Blankenbach, P. Wollaston, F. C. Nivin and J. D. Virtue.
Interment was made in the family plot
in Ross Bay cemetery. PROF. SMIDDY SPOKE IN WILLIAMSTOWN

The city's action in canceling the undertaking permit granted S. J. Curry, for premises on Yates Street facing the Boys' Central School, was again before the City Council to-day, at a special session, held at 11.59 o'clock this morning, on adjournment from last night at the call of the Mayor. M. B. Jackson, K.C., presented arguments on behalf of Mr. Curry. In addition to Mayor Pendray the aldermen present included Aldermen Todd. Dewar, Marchant, Woodward, shanks and Cullin. The session was the first of the kind within memory of Clerk Bradley,

Mr. Jackson said that no city owned property is suitable for exchange with Mr. Curry, and urged civic relief falling confirmation of the trade license either for the Yates Street property or another site on Quadra Street at Broughton Street new under option. Expenses incurred by Mr. Curry amount to 11,760. Mayor Pendray pointed out that no liability rests against the city.

"A lawsuit would be ruinously expensive to both sides, but I am prepared to advise my client of prospects of success," said Mr. Jackson, citing a Winnips case of parallel character. "But I do not like lawentia: they are fine for the lawyer but had for the client," he said.

Aldermen Marchant and Cullin were appointed a committee to consider means of assisting Mr. Curry. This committee will bring in a recommendation to the next meeting of the council covering the advisability of licensing as an undertaking parlor the Quadra Street site or other locations which may be cend

RUBBER SHIPMENT

Judge Decides \$40,000 Worth Not to be Sent From Vancouver

Vancouver. Aug. 4—Echoes of fluctuations in the rubber market were heard in Supreme Court chambers here to-day when Mr. Justice Murphy granted the Gregory Tire & Rubber Company Limited an injunction against D. Hecht & Company and the Anglo-London Paris National Bank and the Kingsley Navigation Company Limited, restraining shipment in the letter's steamship Rochellie from Vancouver at neon to-day of a large rubber consignment to San Francisce. G. G. McCleer, K.C., armed with affidavita, which were sween hy afficials of the Gregory Tire & Rubber Company, appeared in Supreme Court chambers with an application for an injunction.

Mr. McGeer explained that rubber purchased by the Gregory Tire & Rubber Company would be transshipped at seas-to-day to the scader in San Francisco unless halted by an injunction. He said the rubber had been purchased for forty cents a pound and the market price was now about ninety cents.

LANDED FEW DAYS AGO

The rubber was landed here a few days ago from the liner Empress of

New Analysis

of Gold Solutions

Tuscon, Ariz., Aug. 4.—Dr. T. P. Buehrer, assistant professor of chemistry in the University of Arizona, has discovered a new process of analyzing gold solutions.

In making the announcement Dr. C. H. Marvin, president of the university, said the process would be presented by the discoverer to the annual meeting of the American Chemical Society in Los Angeles.

By means of the process, Br. Marvin said, it will be possible to measure the amount of energy needed to extract gold from a solution of gold ore. The disprocess would enable solutions containing a minute amount of gold to be analyzed.

Has Seen On To-night

Chicago, Cincinnati and Seattle Aquatic Stars to Perform and Crystal Garden Will be Crowded With Enthusiastic Spectators: Weismuller Will Make Attempt to Lower World's Record for 100 Yards; Great Comedy Act to be Presented

Johnny Weismuller, whose big feet and hands have splashed their way to more swimming records than any other human being has ever created, will do his stuff at the Crystal Garden to-night. Johnny, who hails from the windy city of Chicago will make an attack upon the 100-yard indoor record of the world, which he himself created in Honolulu. He swam over the century in 52 3-5 seconds. There is no question but that the Canadian record for the distance will be shattered, but whether John will shave the world's marks remains to be seen.

Win Over St. Paul

Defeated Crack Northern Pacific Railway Team Last Night by Score of 5-4

Norm Forbes Pitched Wonderful Ball; Fans Went Wild Near End of Game

In Thrilling Game

whether John will shave the world's marks remains to be a Special timers will be on hand to check up on Johnny's effort. The race against time has been given proper sanction by the Canadian of ficials and should he succeed in lowering the record the Crystal Garden will receive fame throughout the world.

The party of swimmers, which includes the pick of Chicago, Chicinati and Seattle, arrived here yesterday at noon from Seattle, where all participated in the amateur swims ming championships of the United States. The party was officially greeted by Mayor Pendray and local swimming officials.

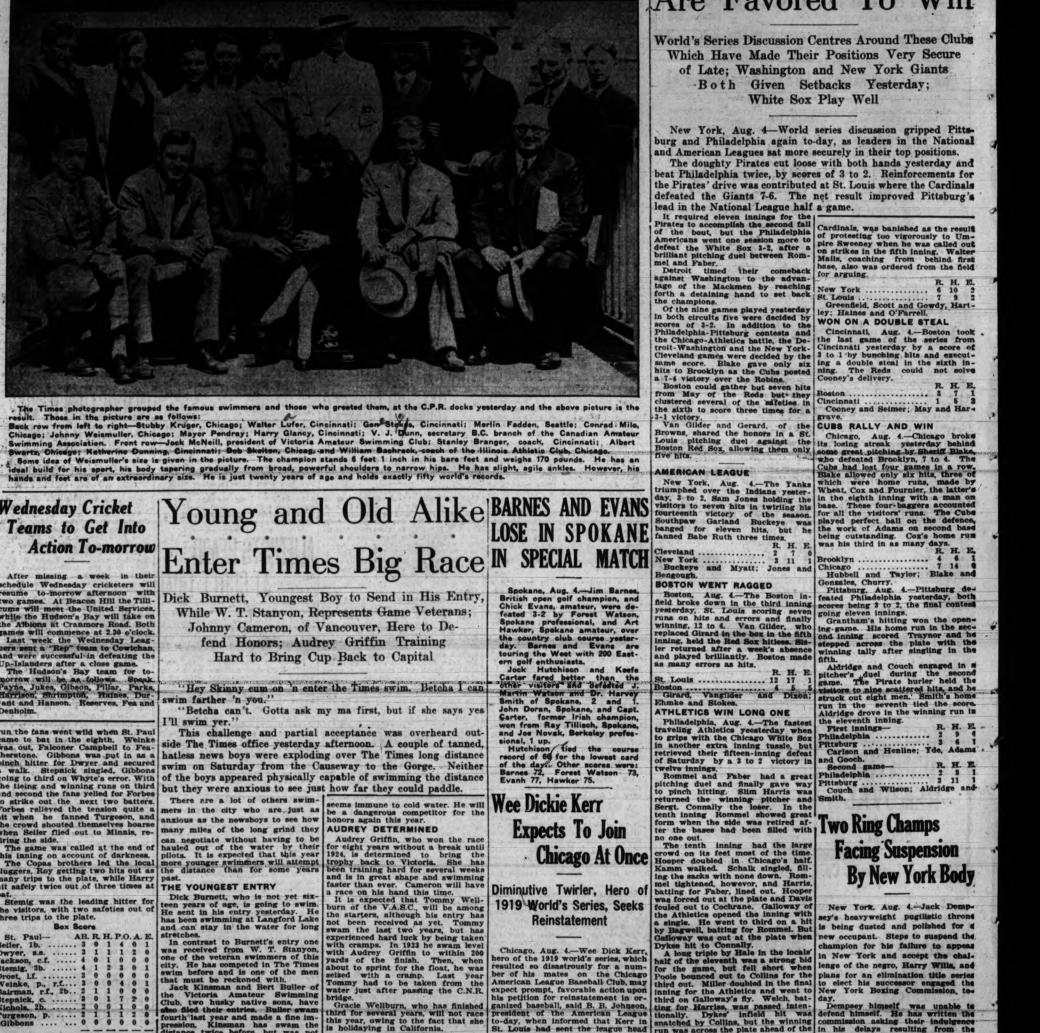

In the afternoon the party visited the beautiful Butchart Garden. Those who were at the pool got an inkling of what is in store for spectators tonight, for Weismuller, Kruger and the rest gave comedy turns as well as showing bursts of speed.

To-day some of the swimmers went out to the golf times to play a round and they expressed themselves as charmed with not only the golf facilities here, but also the Crystal Garden, the Butchart Gardens and the general beauty of the city.

A splendid programme has been arranged for to-night, The party of visiting swimmers has been brought here to compete in the fourteenth annual gala of the Victoria Amateur Swimming Club, and their presence makes this the greatest swimming display this city has ever been privileged to witness. Splendid pitching by Norman Forbes coupled with airtight fielding enabled the C.P.R., local baseball champions, to score a 5-4 victory over the visiting Northern Pacific Railway team, of St. Paul, at the Royal Athle-tic Park last night. A large crowd witnessed what was un-doubtedly the best game this wimming Club, and their presence takes this the greatest swimming isplay this city has ever been pri

Handicap Tourney At Willows Moves Well on Its Way

Greatest Gala This City Champion Swimmers Arrive In Victoria Pirates and Mackmen

The Times photographer grouped the famous swimmers and those who greeted them, at the C.P.R. docks yesterday and the above picture is the result. Those in the picture are as follows:

Back row from left to right—Stubby Krüger, Chicago; Walter Lufer, Cincinnati; Gen Stokis, Cincinnati; Merlin Fadden, Seattle; Conrad Milo, Chicago; Johnny Weisemuller, Chicago; Mayor Pendray; Harry Glancy, Cincinnati; V. J. Dunn, secretary B.C. branch of the Canadian Amateur Swimming Association. Front row—Jock McNeill, president of Victoria Amateur Swimming Club; Stanley Branger, coach, Cincinnati; Albert Swartz, Chicago; Ratherine Dunning, Cincinnati; Bob Skelton, Chicago, and William Bachrack, coach of the Illinois Athletic Club, Chicago.

Some idea of Weismuller's size is given in the picture. The champion stands 6 feet 1 inch in his bare feet and weighs 170 pounds. He has an ideal build for his sport, his body tapering gradually from broad, powerful shoulders to narrow hips. He has slight, agile ankles. However, his hands and feet are of an extraordinary size. He is just twenty years of age and holds exactly fifty world's records.

Wednesday Cricket Teams to Get Into Action To-morrow

SCORE TIED UP

St. Paul evened up the count in the fourth frame. Stemig led off with a single and stole second. Drost whiffed the air for the count of three, and Weinke grounded out to Forbes. With two away Bairman crashed a three-bagger to right field. Stepnick walked out Bairman scored on a wild throw by Forbes, tying the

DETROIT BALKS CHAMPIONS

Wall Street TO-DAY

New York, Aug. 4 (By R. P. Clark Co. Limited)—Specialties were again prominent on the upside during the session and issues like American Can and Dupont registered further advances. However, the general market if anything was inclined to be somewhat reactionary.

The poor earning exhibit of the American Loco. Company was responsible for some active selling in the equipment issues. Olls were again under pressure and new weakness developed in the Pan American issues. There is no material change in the general run of trade advices, which continue of a rather constructive character. In the motor department, general Motors and White were again active and strong, reflecting expectation of good earnings for the year and possibilities of a dividend increase.

ticipate a correction in the market at the expense of quotations.

New York, Aug. 4, 1925 (By B. C. Bond Corporation's direct Wall Street wire)—The Wall Street Journal's stock market edition this afternoon says:

American Can continued to be the leader among the standard industrials, again attaining record levels, while good sized advances occurred in other recent favorites such as Intl. Telephone. Tex Gulf Sulphur, Savage Arms, Shattuck and Continental Can.

Shorts in the motor shares were put to flight by the development of urgent demand for General Motors, which rushed into new high ground for the present bull market, followed by DuPont. But bullish operations received a check in the afternoon from a flood of selling in the Pan-American issues were influenced by the retirement of Pres. Wylie, who was one of the principal factors in the company's upbuilding, particularly with relation to the Mexican properties. Pressure on these stocks served to encourage profit-taking and professional selling in the general list, restraining the runaway tendencies which various stocks had displayed in the morning trading.

Equipments were heavily sold on a basis of American Locomotives' reports for the first six months which showed a balance of \$5 cents a share for the preferred stock, compared with dividend requirements for the publication of June earnings, selling

period of \$2.50.

Simmons became active on the publication of June earnings, selling at a new high for the year at 48. Last month's net more than doubled that of June, 1924, while for the seven months ended June 30 last, profits were about \$1,000,000 over the same period of last year.

Further selling of the oils and equipments in the late morning was offset by continued strength among the industrial leaders.

General Motors was the outstand-

Chicago, Aug. 4 (By R. P. Clark & Co., Ltd.)—Wheat: Displayed a very sirrong tone, with buying encouraged by additional reports of heat and drought injury to Canadian wheat and indications pointing to an abrupt falling off in country movement of Winter wheat. Receipts here were estimated at only ninety cars, while primary points had 1.674.000 bushels against 3,083,000 a year ago. All Winter wheat markets had much lighter receipted than a week ago, while St. Louis report Gulf bids there of 14 conis over Chicago September for No. 4 hard at the Gulf. The Atlantic seahoard, however, reported only a possibly 300,000 bushels. Weather forecasts do not give promise of much change in Canadian conditions

VICTORY BONDS

Prime commercial paper 4.

New York, Aug. 4 (By B.C. Bond Corporations direct wire) — Time money is quiet. Rates continue steady and unchanged. Money for 60 days nominally 4 per cent. bid. 44% offered: 90 days lending at 44% in longer maturity 4% bid. 44% offered: 90 days lending at 44% Commercial paper market is moderately active. City lanks are light buyers, the market being more with the interior. Prime names 4 per cent. with a few exceptionally strong names of nearby maturity occasionsity offered at 3% So. Bulk of business 4 per cent. Less well known names 44% of the strong land of the stron

### WINNIPEG GRAIN

Winnipeg, Aug. 4—Recoveries with a sharp recoil from the comparative listless sessions of recent days, the wheat market here to-day experienced a marked upward swing. Influenced by unfavorable crop reports from Western Canada and an improved demand generally, prices advanced with ease, October delivery closing at \$1.45 for a net gain of 6½ cents from Saturday's figures. December and May scored respective advances of 6% and 6% cents.

coarse grain commodities shared in the bullish move-flax jumping 634 cents, barley 336, rye 214 and oats

The market was strong and active throughout the entire session with the bulls having things fairly their own way. Millers and exporters were in the market for nearby futures, while there was considerable spreading operations.

There was some profit-taking on the extreme bulges but the offerings were readily absorbed. The undertone was manifestly

offerings were reachly absorbed.

Strong.

Winnipeg, Aug. 4 (By R. P. Clark

& Co. Ltd.)—Wheat: The market

was very strong and active to-day,
there being an excellent demand and
prices were mostly from 5 to 6 centa

above the close on Saturday. Near
the close prices were run up to the
high points, cased off haif and
closed 6% to 6% up for the day.
Opening Tigures were 3% to 6%
higher, influenced by the decided
astrength in American markets yesterday, while Winnipeg was closed
and firmness at Liverpool this morning. Sentiment was very buillah
and bears were forced to cover up
early. There was good buying
throughout with exporters and milliers taking nearby futures. There
was also considerable spreading going, buying Winnipeg and selling
Chicago, the distinctly buillish turn
to the market is based on unfavorable reports from Western Canada
during the past few weeks from heat
and drought, and that all prospecta
for a bumper crop are unquestionably gone, and that a fair average
crop is all that can now be expected.

The weather man this morning
showed high temperatures over
Saskatchewan and Alberts, but
cooler in Manitoba with a few light
scattered showers. The forecast was
a little more favorable, predicting
morthwest winds and showers in all
three prairie provinces. We would
advice caution in following the
builges too far, but believe wheat
should be bought on all recession.

In the cash market light offerings
were reported, keeping down the
volume of trade; there was excessent
demand from both exporters and
millers, but holders were not inclined to let go, and as a result
pirces were 1 cent to 3% cents before buyers could secure their requirements.

Coarse Grain: There was only a
light trade passing in the coarse jected, 85%; feed, 82%; track, 85%; Flax—1 N.W.C. 237; 2 C.W., 231; C.W., 208; rejected, 203; track, 231, Rys—2 C.W., 96.

SERIAL STORY

BY MILDRED BARBOUR

He rarely had enough money now to defray the expenses of the tiny apartment where he and Jane and her mother lived. Refusing to find work, he played the races and the stock market, bet on prize fights and baseball games, took any element of chance rather than do a day's honest labor. When he lost, which was often, he drowned his disappointment in drink and came reeling home, ugty and brutal.

At those times, Jane locked herself in her mother's room. She had learned that her husband was a sensualist of the most pronounced type. Inflamed by liquor, he developed a coarseness which debased their tenderest moments and caused every fibre of Jane's sensitive, delicate body to shrink with horror and loathing.

He tired of her as a wife very quickly, too. Before many months had passed, she met him on the street with another irit and once, happen.

midnight, she heard her husband loathing.

He tired of her as a wife very quickly, too. Before many months had passed, she met him on the street with another girl and once, happening to pass through the lobby of the Waldorf, she glanced through the archway into the restaurant. She saw her husband having a cozy little tea with a smartly dressed woman.

Some feeling which was certainly not from her heart—her pride most likely—brought quick tears to her syes and made her lips tremble. She glanced down at her own simple, shabby, little frock and thought defiantly of the silk and furs and plumes she had glimpsed on the woman who was taking tea with her husband. The unfairness of it drove away her tears and awoke anger and laring resentment in her heart.

When she arrived home, she found her mother, who was again beginning to look quiet and anxious and resigned, surveying the larder with alculating eyes.

"There really is not enough for a mag." she 'tidd Jane worriedly." hope Ellis, will bring some money when he comes home to-night."

"He won't, I can tell you that." I am said with tightened lips, 'but there will be money to-morrow night, I promise you, because I am going to work."

Mrs. Marlowe uttered a piteous misteady steps. He must have fallen into bed fully clad, for the light in their room was it only for a brief into bed fully clad, for the light in their room was it only for a brief into bed fully clad, for the light in their room was it only for a brief into bed fully clad, for the light in their room was it the fill fully clad, for the light in their room was it only for a brief into bed fully clad, for the light in their room was it the following morning into which her eyes dark as the night into

I promise you, because I am going to work."

Mrs. Marlowe uttered a piteous

She dropped wearily into a chair, and removing her hat, pushed her heavy hair back from her brow. Her spirits which had been so buoyant all the way home flagged suddenly.

Haynes resumed his comfortable place on the couch asking quietly:

"What makes you tired? Been shopping?"

"What makes you tired? Been shopping?"

"Even a married woman must eat."
Jane replied with a mirthless smile.
"I tell you it's useless to depend on Ellis. Don't ask me why, but it is."
"Oh, why do we have to be pursued by misfortune?" she sobbed. "What have we done to be punished so? Why does everything seem to be against us?"
Jane took her in her strong, young arms and soothed her like a child.
"There, there, darling, don't cry and spoil your pretty eyes! Jane will take care of you somehow. We are through depending on men. We are through belong the man atom of decency in one of them."

There was a vicious ring is her the whole begastly lot. There isn't an atom of decency in one of them."

PAINS IN LEFT SIDE AND BACK

Other Troubles Women Often Have Relieved by Lydia E. Pinkham's Vegetable Compound

Lachine, Quebec. —"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back, and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound devertised in the Montreal Standard' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. Ross., 580 Notre Dame Street, Lachine, Quebec.

Doctor Said An Operation
Provost, Alberta.—"Perhaps you will remember sending ms one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. Tread testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now have a bonny baby girf four months old. I do my housework and help, a little with the chores. I recommend the Vegetable Compound to my remote and am willing for you to use.

of him—manly pride and all that sort of thing."

Mrs. Marlows sighed.

"Times have surely changed. In my day a man would have died before he'd let his wife work while he was strong and able."

When supper was ready, the bedroom door opened and Haynes emerged, smiling his charming, debonair smile. Jane had not called him to announce the meal. The scent of it had apparently reached his nostrils.

"Well, well this is nice!" He seated himself at the table and surveyed the meal approvincy. "I'm as hungry as a wolf. I say, old dear," he turned to Jane, "before we break bread together, I want to apologize for my hasty words. I dare say I am old-fashioned and for a minute, the idea of my wife's working upset me, but after thinking it over, I believe you modern women have the right idea. It's great to be independent."

A few weeks later, he was asking her for a loan to buy cigarettes.

WATER FOR SAANICH

Killed in Mexico Mexico City, Aug. 4.—The War Department was notified yesterday by General Almada, military commander of Coasuila, that the police had recovered an automobile and 4.000 pesos which four bandits carried off last Saturday after attacking Superintendent Hodges of the Penoles Mining Company. The police had killed three bandits and captured the fourth.

The council voted its thanks to the Real Estate Board for its pledge of support to the forthcoming auc-tion sale of city lands. TO CLOSE DITCH

# TO BE DISCUSSED

Convention of Taxpayers' Associations Being Organized

completion of a quarter century of the reign of King Victor Emmaunel. It is estimated between 10,000 and 12,000 persons will be affected. Under the decree those guilty of political crimes will be freed, except when the motives were purely personal and when murder, even unintentional, was committed. Thus, those accused of implication in the Matteottle murder are excluded. The decree also releases criminal offenders in many minor categories except when death resulted from the crimes. Those released will include men and women serving one year or less. Vancouver, Aug. 4.—Arrangements are being made for a conference of taxpayers and property owners' orsenizations from Winnipes west, to be held probably in Calgary in October, according to A. E. Craddock, secretary of the Associated Property Owners' Association of Vancouver. The advisability of urging the introduction of a general service tax on the same principle as the poli tax of \$5 collected by the city of Vancouver will be considered, as, well as other means of broadening the basis of taxation by distributing the burden more evenly.

The city comptrollers from the various western cities are expected to attend and outline their views on taxation and make suggestions for bringing about standard methods of civic accounting.

Esquimalt Will Meet Saanich Committee; Discussion in Committee Kiwanis Club Successfully Protests Against Spring Ridge Location

Discussing matters pertaining to the water supply of the municipality, the Esquimalt Council last night went into committee to hear statements from Reeve R. P. Matheson on this question. It was finally decided that the whole council, with Municipal Engineer H. F. Bourne, should form a committee to go into the water supply question and discuss this with the Saanich councillors. It has been suggested that the two municipalities arrive at some understanding whereby they will obtain a water supply satisfactory to both, and at the least possible expense.

With the exclusion of the press. Victoria-Saanich Water Sales Terms to be Further Con-In order to accept the offer of the Kiwanis Club to complete a child-ren's wading pool in Beacon Hill Park, the City Council last night rescinded a previous decision authorizing placement of the pool in the William Stevenson Memorial Park.

\$650.
Alderman Brown asked reconsideration of the site selected, but met stout opposition from Alderman Woodward and others, who favored return of the question to the parks committee. Mayor Pendray swung the vote 5-4 against further delay in decision, and the change to Beacon Hill as the location passed without dissent.

both, and at the least possible expense.

With the exclusion of the press, the business of the council continued.

Other matters of routine were dealt with during the evening, but the greater volume of the deliberations preceded the discussion and report on the water question.

Municipal Engineer Bourne announced that \$12,468.85 of the estimates was left to be expended before December on the public works of the municipality. The amount already spent by this department was \$15,848.40, said Mr. Bourne.

Trustees, at Convention Here Will Consider Important School Reforms

Standardization of teachers's salaries throughout British Columbia will be one of the reforms discussed at the annual conven-tion of the School Trustees' Astion of the School Trustees' Association of British Columbia, here September 16, 17 and 18. The Okanagas branch of the association will bring forward a standardization plan which, it is expected, will form the basis for definite proposals from the basis for definite proposals from the basis for definite proposals from the association as a whole. The Okanagan trustees also favor making manual training and domestic science work more practical and urge the continuance of agricultural courses with the aid of Government grants.

The first day of the convention will be featured by a reception in the Provincial Library. In the evening the trustees will be entertained by music at the High School, where Hon. J. D. MacLean. Minister of Education, will speak.

It is expected that the trustees, while in this city, will examine with interest the report of the Educational Survey Commission, now in the hands of the King's Printer.

# When Berengeria Was England's Queen

It's a far cry back to the days of Berengeria-Richard's Queen, when rush was strewn on earthen floors and wood as flooring was unknown!

But wood to-day is supreme-and of all wood for floors there's none so beautiful, so lasting or so sought after as oak! It's the flooring for service and for beauty.

We have a special oak flooring-5-16 inch-to lay over old worn floors. It mean increased satisfaction -an ease in cleaning scarcely believable.
